Rocketship 24-25 Assessments [Compliance]

Name	Wisconsin Forward Exam	Dynamic Learning Maps® (DLM®)	WIDA Screener	ACCESS for ELLs®	Alternate ACCESS for ELLs	NWEA MAP	DIBELS
Purpose	The Exam is designed to gauge how well students are doing in relation to the Wisconsin Academic Standards. These standards outline what students should know and be able to do in order to be college and career ready.	Dynamic Learning Maps® (DLM®) assessments are for students with the most significant cognitive disabilities for whom general state assessments are not appropriate, even with accommodations. DLM assessments offer these students a way to show what they know and can do in English language arts, mathematics, and science.	WIDA Screener is an English language proficiency assessment given to new students in grades K-12 to help educators identify whether they are English learners (ELs). It is a flexible, on-demand assessment that can be administered at any time during the school year. WIDA Screener is available in two formats – online (U.S. only) and paper (U.S. and International).	ACCESS for ELLs® is designed to measure English language proficiency. It is a large scale assessment that is based on the WIDA Consortium's ELD Standards that form the core of Wisconsin's approach to instructing and testing ELs.	Alternate ACCESS for ELLs is designed to fill the same role as the regular ACCESS for ELLs for students in grades 1-12. This paper/pencil assessment is accessible for eligible students with significant cognitive disabilities.	MAP Growth is an adaptive assessment that measures students' achievement and growth in K-5 math and reading.	DIBELS ® (Dynamic Indicators of Basic Early Literacy Skills) is a set of procedures and measures for assessing the acquisition of literacy skills. They are designed to be short (one minute) fluency measures that can be used to regularly detect risk and monitor the development of early literacy and early reading skills in kindergarten through eighth grade.
Grade	3 - 5	3-5	K5 - 5	K5 - 5	1-5	K5 - 5	K - 5
Tentative Dates	March 17 – April 25	March 17 – April 25	Within first 30 calendar days of student's enrollment date.	December 9 - January 31	December 9 - January 31	Administered 3 times per year. Round 1: 9/9-9/20 Round 2: 12/4-12/17 Round 3: 5/12 - 5/23	Administered 3 times per year. Round 1: 8/19-9/6 Round 2: 12/2-12/19 Round 3: 5/5-5/30
Time and manner in which parents and students will be notified of the results of the tests	Student score reports will be distributed to families within the first 20 calendar days of the following school year.	Student score reports will be distributed to families in the fall of the following school year.	Within first 30 calendar days of student's enrollment date.	Student score reports will be distributed to families within the first 20 calendar days of the following school year.	Student score reports will be distributed to families in the fall of the following school year.	Scores are included on student report cards. Report cards are distributed 3 times per year. Describe how the test complements and enhances student instruction and learning and how it serves a purpose district from state- required tests.	The Forward Exam is a high quality, research-based, and affordable online assessment that meets Wisconsin's expectations. It is a customized assessment with innovative item types that includes test questions reviewed and approved by Wisconsin educators.	DLM assessments also help parents and educators set high academic expectations for their students. Results from DLM assessments are used to inform instruction and meet accountability requirements for reporting student achievement.		Educators use ACCESS results, to make decisions about students' English academic language and to facilitate their language development.	Educators use ACCESS results, to make decisions about students' English academic language and to facilitate their language development.	Understand how K-5 students are performing, track student progress, and inform your instructional strategies	DIBELS results can be used to evaluate individual student development as well as provide grade-level feedback toward validated instructional objectives.
